Very smart suits at moderate prices

Modest prices will be found on the tickets of the suits shown here Monday. Each suit is an accurate copy of a Paris model, and bears an imprint of style. Women who value individuality and correctness, combined with moderate prices, will find tomorrow's showing a welcome opportunity.

Many fortunate women can choose from this superb collection. Suits of cloth, tricot, cheviote, velvets, Ottomans, broches and poplins. Cutaway coats—lacy or plain backs. Either plain or draped skirts. Some of the coats are velvet trimmed, other coats are fur trimmed. Blue, brown, navy, black, garnet, petrol, wistaria, plum and wine are the colors.

\$25.00 \$35.00 \$40.00

Very stylish waists from best

French models

French effects in hand-made crepe and chiffon blouses. Some are lace trimmed. Very many of the semi-dress styles are of chiffon over net and shadow silks.

Other models are shown in Brussels net waists. Some have shoulders of flit lace and are made in the popular three-quarter or long sleeve models.

Some of the new styles are shown with fashionable dip shoulders. Every novelty of design ready tomorrow. Every waist tells a story of style which will interest every woman who would be well-dressed.

\$10.00 \$12.50 \$15.00

The secret of a good fit is a correct corset

The Lyra styles are in recognition of the fact that the secret of a good figure is its foundation.

The corset

Present demands of fashion are met by the new lines in the Lyra corsets. The flat back with the natural figure in the front, lowered bust line, lengthened skirt, large waists and colored legs—to meet the present taste, and the wearer can fit any gown over a Lyra corset.

\$3.50 to \$18.00

Monday's special new lace front corset: correctly cut hip lines; long and comfortable.

The Regaliste Corset

Its Seasonable Advantage

*"Style cannot atone for an ill-fitting corset,
nor can comfort atone for any lack of style"*

The above is quoted from one writing of corset advantages, and the reverse of them. We agree with him. He goes on to say

"And the problem becomes all the more perplexing, since it is no easy matter to get both"

To this we do not agree—but it is quite probable the writer is not acquainted with the REGALISTE corset and the advantage it holds over (to be considerate) almost every other corset made.

Very emphatically, it is easy to get both style and comfort into a corset—if you know how and have the materials. Not "knowing how" is difficult. After the necessary education doing things right is the easiest way.

The REGALISTE corset conforms exquisitely to the present style of loose fitting clothing. The flexibility of its seam boning—its a gently curved lines assure the comfort no woman wants ever to give up.

It has all the points that make for corset excellence: slenderness, grace of line, fashionable cut, elasticity, ease and it has more than this.

It has a certain something about it—the way it is cut and put together—that gives support to the figure, holding it gently where it needs it, and yielding easily with every movement of the body—and keeping always a fashionable silhouette.

Made in many styles of durable materials and fancy trimmings—the REGAL-
ISTE corset is a source of unalloyed satisfaction to many women who are fortunate
enough to own one.

Extraordinary Sale of Fine Imported Evening Gowns

Paquin, Lucile, Poiret, Doucet and Callot Models
Our very latest purchase was an unusually happy one—one hundred very handsome Evening Dresses and fine afternoon costumes, including a few 2 and 3-piece suits of velvet, brocade and fine brocades—*one of a kind*.

Atlanta women have never before known such an opportunity to possess the finest gowns from such famous designers as Duet, Poirer, Felix, Callot, Bernard, Paquin and Francis at such a figure.

These dresses came to us as such things do very frequently, though it is indeed rare that we chance on such a handsome lot, fitting in so beautifully with the season, and to be able to buy them at one-half and one-third the prices such high-class goods are expected to bring.

We have chosen fifteen models to tell you about. You may like the remaining 85 even better. Come here Monday morning and see them all. Even though you are prepared to see some rich gowns you will be surprised and, of course, delighted with what you find here.

Selling them at the quoted prices is more like a season-end sale than a first-of-the-season offering of new goods.

An Atlanta Firm Employing Atlanta Workmen Manufactures the Original and Only Genuine MONCRIEF FURNACE

For sixteen years the original MONCRIEF FURNACE has been manufactured in the city of Atlanta, sold in the city of Atlanta, as elsewhere, and for an equal number of years every ORIGINAL MONCRIEF has been giving satisfactory service.

For sixteen years Atlanta workmen have been making the original MONCRIEF FURNACES, and for just that long have been spending their hard-earned dollars regularly every week—spending them in the city of Atlanta.

The people of Atlanta have shown their appreciation of the strictly high-grade furnace which we manufacture, and of the part we have played and are playing in the building of this great city. They have shown their appreciation in a substantial way during the sixteen years that we have been in business here.

One Thousand Nine Hundred and Sixty Original Moncrief Furnaces AND THEY HAVE BOUGHT THEM FROM US.

Several features which are the great essentials of The Moncrief Furnace are as follows: The Duplex Grate, which reduces the labor of shoveling the fire, rendering unnecessary the use of the poker or shoveling bar; the Fire Pot, which is constructed of heavy weight and nearly straight, making it possible for ashes or coal to lodge in the fire pot without interfering with the burning of the fuel; the heavy wrought iron, and the Radiator, consisting of a large combustion chamber, insuring all available heat.

THE MONCRIEF FURNACE Made in ATLANTA

We have no monopoly of the furnace business in Atlanta, we welcome honest competition, realizing that THAT KIND of competition helps to stimulate business generally. When another furnace manufacturer comes into Atlanta, though, and deliberately tries to monopolize our good name and reputation, appropriate action is taken.

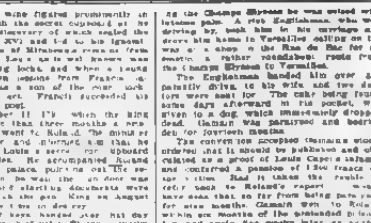

Mr. S. P. Moncrief is the ORIGINATOR, the head of the company that MANUFACTURES, and the sole selling agent in Atlanta of the ORIGINAL and GENUINE MONCRIEF FURNACE. Our office is located at 139 South Pryor, and when you want the long tried, ORIGINAL, MONCRIEF FURNACE, either come to see or telephone US about the matter and your order or request for information will receive our prompt attention.

We have contracts on hand from Mississippi to North Carolina.

A Business Man's Recreation

Upon the way a man spends his time outside of business very largely depends his efficiency in business. A great many men of large affairs to-day are making music their hobby. This has become possible only through the invention of the Kimball 66 Note Player-Piano.

Through this medium you can become familiar with the classics, the latest popular hits, dances and religious music, without any previous musical training.

In other words, the Kimball Player-Piano bridges years of technical training, because anyone can play with but a few minutes' instruction. With but one stroke of the lever, the Player is transformed into a piano for hand or manual playing.

Our record of sales shows that the Kimball Player is bought by the leaders in the business world, such as bank presidents, lawyers, doctors and captains of industry in every line.

We cordially invite you to a demonstration of our several styles; then you will understand and realize fully that we don't overstate the immense amount of satisfaction they afford.

If you have an old instrument or an instrument in your home that remains silent because there is no skilled musician to play it, we will make you a reasonable allowance for it to apply on the purchase of a new Kimball Player. Remember that the value of such instruments taken in trade is greater to-day intrinsically, than it will be later on.

We will be pleased to have a salesman call upon request. To-morrow we are offering a strong array of values in used Pianos and Player-Pianos. Cash, or convenient terms arranged.

NO GRAPE JUICE CHURCH FOR THE EPISCOPALIANS

Request of W. C. T. U. That Unfermented Wine Be Used at Communion Not Considered.

New York, October 25.—The convention of the World's Woman's Christian Temperance union adopted a resolution today which would prohibit the use of grape juice in the celebration of the communion in churches of the Episcopal communion.

The resolution was a modification of one already offered during the convention, which would have prohibited the use of any alcoholic beverage in the celebration of the communion.

The convention was held at the Waldorf-Astoria hotel in New York city, and was attended by delegates from all over the world.

The resolution was adopted by a vote of 100 to 50. It reads: "Resolved, That the use of grape juice in the celebration of the communion in churches of the Episcopal communion is hereby prohibited."

HALLOWEEN NOVELTIES

To make a witch like the fully equipped one on the upper part of the page, first get a clothespin. For the head get some tissue paper, cotton wad-

ding or anything that will make a good padding and cover it with crepe paper. Paint the features with water color. Get four strands of flower wire and twist it to form the arms, leaving them spread at the end to suggest fingers. Cover the wires with paper and fasten firmly to the clothespin. Make an underskirt of orange crepe paper, and an overskirt of black crepe paper and a cape of the orange paper. The hat is made of black cardboard with a band of the orange paper. The wig is of white cotton. Orange paper in slits is fastened to the broom stick.

The cabbage head underneath the witch is made of three shades of green tissue paper. Crumple a sheet of paper into a ball and encircle it with a covered wire. Cut out large petals and curl the edges with a covered wire. Group two or three petals around the ball. Make petals of a darker shade, curl them and group about the first petals. Add two rows of petals made of the darkest green paper and fasten the whole securely. The stem should be covered with white paper. The pumpkin bon-bon box at the bottom of the page is made by padding the top of a round box with cotton. A strip of orange crepe paper is pasted inside of the lid and drawn up over it. Fasten

it at the top with a piece of wire. The end of this wire is left uncovered and wrapped with green tissue paper. Paint a grotesque face on one side of the pumpkin. The leaf is fashioned from dark green tissue paper and glued to the bottom of the box.

The Mephisto head makes an attractive center piece. The head is made entirely of orange crepe paper, the face being put on in water color. The flower petals are crepe with wired centers and the stem is wound with green tissue paper.

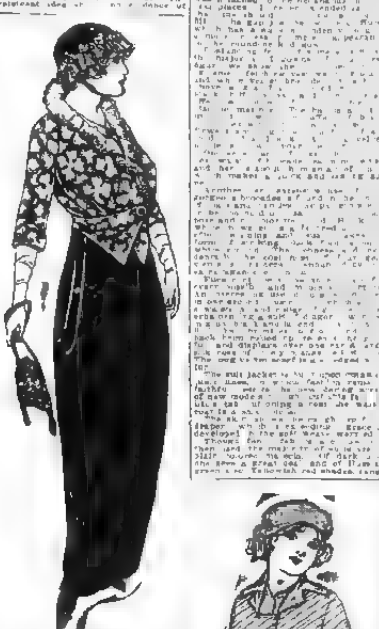

The flower bordered with cards is a receptacle for nuts. A cup is lined with crepe paper with a fill over the brim. The petals are cut in the same manner as those of the cabbage, but their edges, instead being curled on a pencil are crinkled with the hands. The stem and the calyx are of green crepe paper. Tiny playing cards are glued to the cup.

The Brownie beneath is made of tissue paper. The face is sketched in with water color. If the petals around the head are used they should have a wire glued through the center of each petal. Each petal fastened around the head securely.

SEVEN PRISON GUARDS SUSPENDED BY WARDEN

Moyer Starts Cleaning Out by Getting Rid of Men Charged With Inhuman Nation.

Seven guards at the federal prison, and others have been removed from duty since the warden, Mr. Moyer, started his campaign of cleaning out the institution. The first group of seven guards were suspended on Thursday after an alleged assault on a prisoner.

Immediately after receiving the news of the suspension, the warden ordered an investigation. The guards were charged with assault on a prisoner, and the warden ordered them to be suspended until the charges were cleared up.

The seven men suspended were: [Names of guards]. The warden also ordered the suspension of several other guards who were alleged to be involved in the same incident.

The warden's action has caused a great deal of excitement among the prisoners. They are hoping that the suspension of the guards will lead to a general strike or other form of protest.

STICK A PIN HERE
A TIME of depression is a time of education and to the
arc and discriminating investor equally a time of
opportunity. The general trend of realty values in At-
lanta is upward. While the change in the administration of
our national affairs, and a consequent change in great pub-
lic policies, together with the short crops of 1912, depressed
prices for a while, AT NO TIME HAS A SINGLE PLOT OF
ATLANTA PROPERTY BEEN SACKER FOR LESS THAN
it was worth during the past year, as have those who are
in the safest bonus and stock.

YOUR OPPORTUNITY IS NOW
WITH SUCH GREAT AND necessary civic improvement
contemplated as the opening up of Spring and Cone
streets, the property of the railroad and a number in the
western part of the city, central property values are bound
to reach higher levels. We have a few central and semi-
central lots which we can turn at last spring prices. Let's do
business before they are withdrawn from the market.

CENTRAL LOT
NORTH HEART of the city, within a stone's throw of the
new Healey Building and in the center of the city.
Dollar District, adjoining a ten-story office building, we
offer \$40,000 for \$1,550 per foot. In our opinion it is
worth \$6,000 per foot today and will sell for \$2,000 per foot
in a few years.

SEMI-CENTRAL CORNER
ONE BLOCK of Peachtree Street and Capital Avenue
100,000 feet, located on Spring Street where it in-
tersects the full benefits of the new street work. We believe
it is a \$10,000 to \$15,000 profit in this corner within
twelve months. The large owners up in town are not in-
terested and this one will make you independent. Price
\$70,000, \$5,000 cash, balance can run ten years at 6 per cent.

PEACHTREE, THE WONDERFUL
WISE INVESTORS who have placed money in Peachtree
Street property have reaped a harvest. One two and
one-half acres three lots for every dollar invested. We
believe that opportunities are as great in the street today
as they were one to two years ago.

\$40,000—STORE LOT—\$40,000
PEACHTREE STREET this side of Baker Street
valuable work or you day and night. The wise ones predict
that there is \$1,000 per foot profit here within twelve
months.

PEACHTREE CORNER
ONE of the very few corners to be had on the street at
any price \$500 per foot. Price \$1,000 per foot. At-
tractive terms.

PEACHTREE, BETWEEN BAKER AND IVY
20000 PEACHTREE to a 10-foot alley adjoining a new brick
building. If you do not buy you can figure that you
have lost from \$8,000 to \$10,000 this next year. Price
\$1,500 per foot and priced \$250 per foot under the market.

ALABAMA STREET BARGAIN
ON ALABAMA STREET we offer 5000 feet, running
back to railroad side track. With all of the commission
houses moving into this section, that is now a wholesale
center, we cannot but believe that values will climb steadily
upward especially with the Plaza almost a certainty. Price
\$3,000, \$500 cash, balance \$5,000 per annum, 6 per cent.

LEASE WITH OPTION TO BUY
IF YOU ARE a manipulator you can make money out of
it. We have on Peters Street, a few feet from South
corner, 7300 feet, with alley side and rear improve-
ments of one two-story and one three-story building. We
can make an attractive lease for five years on the entire
frontage, arranging option to purchase. If you money has
been made out of this kind of proposition, why not by you?

INVEST IN CENTRAL CORNERS

NO BETTER INVESTMENT can be made than to buy
a centrally located corner in Atlanta. You not only get
substantial rentals from such properties, but you can al-
ways absolutely count on a rapid increase in values. Go
out in the market if you please and see how many central
corners you can find for sale in Atlanta, and after you have
completed your search, the answer will be the same as all
others who have looked for such properties—"I found one
or two but the prices were prohibitive."

WITH US THIS IS NOT THE CASE. We can sell
a corner in the very heart of Atlanta at a price of \$10,000
or three of the main business arteries that rents for \$2,000
per year that we can sell for \$10,000 on terms of \$2,000
cash and \$8,000 per year with 6 per cent. This corner has
a frontage of 70 feet and the ground is all new and is
not less than \$2,000 per foot, from foot, considering its cen-
tral and a strategic location.

GEORGIA DAIRYMEN AT CHICAGO SHOW

Large Delegation Georgia Dairy-
men to Attend Dairy Show.
To Buy High-Grade Cattle.

A large party of Georgia dairymen, headed by J. B. Price, commissioners of agriculture; Dr. Peter F. Robinson

And will give the Georgia dairymen the opportunity to inform themselves of the latest methods. The Georgia Dairy Party expects to purchase three or four of the highest quality dairy cattle which will be high bred and will give a glimpse of the Georgia dairyman's improvement. This is the first time that the Georgia Dairy Party has been organized by Dr. Sargent. He is expected to be in the city to insure that the exhibition is successful. It is expected that the addition of these high bred animals will greatly increase the interest of the Georgia dairy people.

The following dairymen from Atlanta and vicinity will be in the party: J. H. McNeen, secretary Atlanta Dairymen's Association; A. J. McNeen, Atlanta; W. H. Miller, Bolinger, Atlanta; J. H. McNeen, C. H. Sargent, Atlanta; E. H. McNeen, Atlanta; H. H. McNeen, Atlanta; and J. H. McNeen, Atlanta.

PAIGE 36 \$1275

Completely equipped, including Large Unit
Gray & Davis Electric Starting and Lighting System

If the Paige "36" was priced at \$1500, it would still be an exceptional value.

The fact that the price is only \$1275 is something for the Paige purchaser to be proud of.

Such a price for such a car is proof of maximum efficiency at the Paige plant, and factory efficiency establishes the efficiency of the car.

We believe we could sell every Paige car we have been allotted for this year at \$1500. We could get that price on the size and looks of the car, on its power and comfort on its construction and equipment.

There are reasons aplenty for the excellence of the Paige product and the unusualness of the Paige under-price. Absolute financial independence, freedom from debt, freedom from bonds, freedom from preferred stock, economy of management, advantageous buying of parts, material and equipment due to quantity purchase and financial standing, these and more are obvious reasons.

Paige "36" equipment is complete in every detail, and all of the highest class, including Gray & Davis large unit electric starting and lighting system, ventilating windshield built into body, six motor top, two doors, four windows, seven revolving fuel injectors, 12 inch electric head lights, electric side lights, dash in dash, 16 demountable tires, Goodrich or Diamond tires with bonded to rubber, Bosch magnetic adjustable foot and wheel roller, extra tire frame, bumper, shock absorbers, pump, oil, rock, four repair outfit, etc., complete.

Don't you want the advantage of the under-price? Come see the Paige now, whether you desire early or future delivery. We couldn't tell you all the good things about the Paige—all the things that make it better at a lower price—if we ran an advertisement in the papers every day. But you can come here and see and know these things for yourself. If you aren't an automobile expert, bring one with you. We will leave the question of purchase to your judgment and us.

DECEMBER COTTON LED IN ADVANCE

COTTON GINNED UP TO OCTOBER 18

That Option Sold 29 Points Over Low Level of Previous Day—Predictions of Cold Wave Factor in Advance.

Third Ginning Report of the Census Bureau Gives 6,956, 583 Bales as the Number Prior to October 18

New York, Oct. 25.—There was a material advance in cotton futures today, the market being led by the December option, which sold at 29 points over the low level of the previous day. The advance was due to a combination of factors, including the prediction of a cold wave and the fact that the ginning season was well advanced.

The December option sold at 29 points over the low level of the previous day, which was 15.00. The advance was due to a combination of factors, including the prediction of a cold wave and the fact that the ginning season was well advanced.

The third ginning report of the Census Bureau, dated October 18, shows that 6,956,583 bales of cotton have been ginned up to that date. This is a significant increase from the previous year, and it indicates that the ginning season is well advanced.

The report also shows that the ginning season is well advanced, and that the market is well supplied. This is a positive sign for the cotton market, and it suggests that the price of cotton will remain stable in the near future.

Privacy of Want Ad Answers

Absolutely Guaranteed

WHEN inserting an advertisement in the Classified Columns of The Constitution, wishing to receive answers at the Constitution office, give no address or identity whatever---the address will be supplied and you will receive a check like the one shown below, bearing a letter and a number. When you insert your advertisement the number below the perforation will be pasted on your copy and you will be given the corresponding letter and number.

TO make certain that you get your own mail and that nobody gets yours is the reason for using this system. The Constitution has had the call-check system in force for some time, but permitted advertisers to select their own call names as they had done for years.

Constitution Classified advertising replies, however, have increased to such an enormous volume that this is no longer feasible. In fact, it is annoying to the advertiser and might prove embarrassing.

For instance, one day last week a young man advertised for a position signing himself "Inquirer."

The Atlanta Constitution
The Standard Southern Newspaper

The bearer is entitled to letters of
this address for seven days.

C799

Address C799 Constitution

A WOMAN, also signing herself "Inquirer," advertised a Morris chair for sale. The boy was on hand early and got all the mail addressed to "Inquirer," the duplicate addresses having slipped in during a rush of business. The first letter the boy received recited the willingness of the writer to investigate the merits of one Morris chair.

"I don't want to sell any chair," exclaimed the lad. "I want a job."

This matter was adjusted, but you see how easily mistakes might occur.

Hereafter "blind" advertising in The Constitution will be actually blind.

Constitution Classified Advertisements Hereafter Will

Be Posted On Bulletin Boards in Constitution Corridor

Rooms and Board Bulletin

EVERY room and board ad will be posted on the Rooms and Board Bulletin Board in view in the corridor of the Constitution building, where is located our Bureau of Information.

This will make it possible for every stranger in town to see at a glance when you have a room or board for rent or a board for hire. Should the communications sought not appear in the ads that lay, paper and pencil will be at hand for the stranger to communicate with you through the columns of The Constitution's Want Ad Office. So be sure and use others' ads as well as your own.

A little Want Ad rents many a big room. Your telephone will take your ad to The Constitution and put it to work tomorrow. Better start.

ALL Lost and Found articles advertised in The Constitution will be posted at The Constitution's Information Bureau, Constitution building, Forsyth and Alabama streets, for fifteen days following the printing of the advertisement.

Lost and Found articles may be reported by telephone at any hour of the day or night. If anything is lost insert your advertisement in the paper and it will appear the next morning. The notice of your lost article, with its description, will be posted on The Constitution's Lost and Found Bulletin immediately.

If you find an article of value insert an advertisement in The Constitution, to be paid for by the owner of the article, and when the owner appears he will receive the article upon payment of charges for advertising.

Help Wanted Bulletin

ADVERTISEMENTS for Help Wanted will be posted every morning on The Constitution's Help Wanted Bulletin. If you want a job look at the board. If the job you seek is not advertised, paper and pencil will be convenient for you to insert an ad of your own. Although do not feel under any obligation to advertise just because you look for a job on our bulletin board.

This board is to lead the employer, business man or housekeeper who needs help to get the efficient assistance required. Not only will the advertiser's message go into the homes of workers employed and offer them your inducements to compare with their present emoluments, but it will be posted in front of the eyes of an army of unemployed who watch daily or the first street editions of The Constitution.

This Constitution Employment Service will prove the most valuable means of getting work and workers together ever attempted in Atlanta. Use it freely. It belongs to the people.

General Information Bulletin

BUSINESS Opportunities and classified advertising of general interest will be posted on the General Information Bulletin at The Constitution's Bureau of Information.

In many ways this will be the most interesting section of the Bulletin Board. Messages displayed there will be as varied as the minds of men. It will be a convenience to the city's business that will stimulate interest in every thing you buy or sell. Make good use of it.

World's news, when disasters occur or events of stirring moment break the routine of affairs, will be posted on this board.

Watch it.

Prompt Deliveries Stamp Your Business As Progressive.

Green and Merchants selling direct to householders will appreciate the significance of the following incident: An Atlanta grocer's advertisement in The Constitution contained the line "Deliveries Prompt." Several new grocers have been brought into the market and one householder writes to the grocer advising him to display more prominently the factor prompt deliveries. "Delayed deliveries," the householder writes, "are the chief cause of dissatisfaction against our tradepeople."

No Other "Six" in the World Near This Price

The new Studebaker "Six" stands absolutely alone and apart in the entire field of six cars. At its price of \$1575—less by hundreds than the price of any other "Six"—it brings you vastly more than the quantity and quality of the "Six". It brings you the advantages emphasized and emphasized because the "Six" is not only a manufacturer's "Six", but a Studebaker-manufactured "Six".

Carries Seven in Comfort

It brings you passenger capacity for seven. It brings you the manifold advantages of electric starting and starting through a battery system that has proved itself on thousands of Studebaker cars. You have never before been able to buy such a car at \$1575.

Today you realize just what another car at this price in the entire world.

Six Thousand Manufacturing Operations

How completely the Studebaker "Six" is the product of the great Studebaker plant, you will see when you know that its construction is made of more than 6000 manufacturing operations.

We build the motor from the raw iron and steel down to the last, the numerous processes of casting, machining, grinding and assembling to the finished product.

We build the fastidious rear axle—weld the light though they are—steel axles from the steel as well as from the cast iron and make the axle and frame into one unit. Through the use of the frame and frame unit and in the front wheel we use all Timken roller bearings for quiet, easy running.

Economical of Fuel and Tires

In fuel consumption we believe the "Six" will match if not surpass the economy of any car of equal horsepower. Its motor is 3-1/2 inches.

It is good value because, in spite of its 111 inch wheelbase, it is light and easy on its 4-1/2 inch tires yet it is wonderfully strong.

It is generously roomy and richly appointed and carries six seven passengers in utmost comfort.

In design and line the "Six" acknowledges no greater beauty and grace.

Separate Electrical Units

The starting and lighting system is the Warner two-unit starting motor and generator system. Lamps are 35 and 40 watt. High quality incandescent type.

In short the "Six" lacks nothing in style, beauty or comfort.

\$1050

This "FOUR" the Final Word Among Four-Cylinder Cars

This Studebaker "FOUR" has been developed from our experience in building 110,000 FOURS.

Its price, \$1050 represents the complete limit you should pay for a "FOUR" because no "FOUR" can give you more in value or performance than this one does.

So its price is right. Its value is right. Its power is right. It is the right type—the best word among four-cylinder cars.

A Powerful Long-Stroke Motor

Not only that we can save you an adequate idea of the power possibilities of this car, or of the things of which it is actually capable.

The motor presents the latest approved engineering practice—cylinders cast as one, valves overhead, overhead and intake manifold integral.

The intake is very short and direct placing the carburetor in a most advantageous position.

In fact, both oil and gasoline. It will give long mileage.

Thirteen Timken bearings reduce friction and wear to the minimum, a very 60 at in the transmission and rear axle and in front wheel hubs.

A Car Pleasing to the Eye

The "FOUR" presents the beautiful conspicuous aluminum wheels, with hood sloped upward in a deep curve.

Rear fenders are cast and free with tool marks in aluminum.

The fenders are under the cowl, giving a short, direct gravity lead to the carburetor.

Its rear axle is of the full-floating type and completely adjustable.

The rear springs are full-elliptic, very long and easy and with the lower member suspended beneath the axle.

Electric Lighting and Starting

It has telescopic steering and center control. The electric starting and lighting equipment is the Warner two-unit system—two units for greater efficiency and greater dependability.

Headlights are Gray & Davis best quality parabolic lamps.

The windshield is of new design ventilating clear vision and rain vision.

Most Modern and Complete Equipment

It is detachable, demountable, with one extra rim and tire carried at the rear. Studebaker-Jiffy curtains are always ready for quick lowering from the top of the car.

The dash equipment includes illuminated speedometer, oil feed and electric current indicator.

Electric horn, radio call, tools and tool box are also furnished with the car.

The car can now be seen at the Studebaker store, and a demonstration arranged.

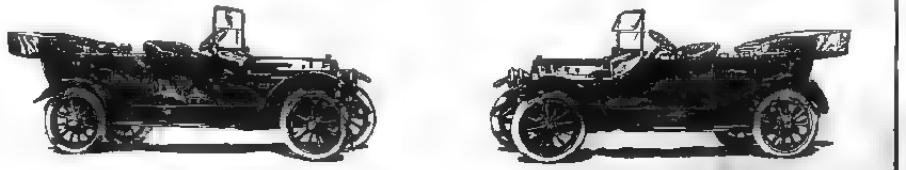

"Buy it Because it's a Studebaker"

Not because of the price mark; but because of the trade mark.

Not because of the good looks; but because of the good name.

Not because of the outside, but because of the inside.

FURS AND FINERY IN EVENING GOWNS.

THE gown on the seated figure is of delicate blue chiffon, edged with silver fox fur and is worn over chambrase. Velvet in brilliant red trims the bodice and forms the girthe which is finished with a long end, to which is fastened a camel.

The middle gown is of white silk crepe, bordered in shades of blue. The dainty frills are of the finest tulle, and the wide Japanese sash is of blue crepe. A

bolst of the blue trims the sleeves.

Of pale yellow chambrase with drapery of soft blue chiffon is the gown on the right. The lower half of the bodice and the belt are of pearl-bordered embroidery. A patch of marine blue chiffon is clipped through the pearl clasp in front, passing beneath the embroidered belt and trailing forth in a huge loop bow in the back. The overskirt of chiffon is caught up in the bodice effect by a red fold of chiffon.
